PROFESSIONAL HIGHLIGHTS

Registered Landscape Architect in Minnesota, Iowa, South Dakota. B.L.A. University of Minnesota, 1987

2004 - 2007 Paul Miller Design Inc., Northfield, Minnesota

President, responsible for all aspects of design practice offering golf course architecture, landscape architecture, and site planning.

Otter Creek Golf Course, Ankeny, Iowa - a complete renovation of the existing hole golf course that will feature a new 18 hole golf course, a new clubhouse and a residential development spread out over the 392 acre site.

Burnsville Landfill Golf Course, Burnsville, Minnesota - a dramatic end use, links style golf course that will play as a par 72, 6,950 yard, 18 hole golf course. The golf course will sit on top of the "island in the sky" site. Construction will be phased in as the landfill is completed.

1990 - 2004

Gill Miller Inc., River Falls, Wisconsin

Principal, responsible for all aspects of golf course architecture practice. Involved in over 140 projects over 14 years. Major projects as project golf course architect included:

The Meadows at Mystic Lake, Prior Lake, Minnesota - this *Golf Digest* top ten new resort course in 2006 features a spectacular 18 hole golf course with water falls, ponds, and fountains. Design work included site planning for shelters, maintenance, clubhouse, parking lots, extensive landscape and tree relocation plans.

The Legends Club, Lakeville, Minnesota - 18 hole championship Golf Course and Practice Range. The 360 acre site golf course and upscale housing community takes advantage of a 30 acre lake to establish a harmonious blend of dramatic golf holes and spectacular home sites. The golf course has won numerous awards including *Golf Digest's* top ten best new upscale golf course in 2002.

White Eagle Golf Club, Hudson, Wisconsin - 350 acre site development that included an 18 hole, 7,178 yard golf course and upscale housing community. The design of the golf course took advantage of the rolling topography and the wooded site to create a memorable and challenging but playable golf course.

1987 - 1990

Barton Aschman Associates, Inc - now Parsons, Minneapolis, Minnesota

Design Associate involved in park, streetscape and site development projects. Multi-disciplinary firm provided civil & traffic engineering, environmental and transportation planning.

1985 - 1987

Damon Farber Associates, Inc - Minneapolis, Minnesota

Student intern at a landscape architecture office specializing in site development projects.

1985 - 1987

Town and Country Club - St. Paul, Minnesota

Participated in all aspects of golf course maintenance on this historical 18 hole golf course.

1976 - 1982

Crow Valley Golf Club - Davenport, Iowa

Participated in all aspects of golf course maintenance on this top private 18 hole golf course.

SUMMARY

Highly motivated, creative and versatile design professional with extensive experience in golf course design, site planning, and managing complex construction projects. Especially effective in building strong consultant / client project teams. Award winning designer with national recognition for completed projects.
